

# CHIJ CHILDREN'S Day - 5/10/2017

## Tattoo Glitter

Tattoos and glitters are sure winners during our children's day celebration!

Parent volunteers stationed themselves to assist the girls from the queueing to the selection of tattoos and then the application. It was so gratifying to see the girls beaming with their temporary tattoos that swung from cute and adorable ones like cupcakes and butterflies to the utterly cool and abstract ones like skulls, mythical creatures and those plain wacky ones! Some of the super enthusiastic IJ girls got themselves more than 6 tattoos! The parents who artistically painted the glitter on just made the girl's day all the more blink!

I am impressed by the sheer number of parents involved in the event. It was exhausting but nevertheless enjoyable.

I wish to thank mommy Magdalene and the rest of the PSG committee members for painstakingly organising this for the children and going the extra mile to ensure the hectic occasion was memorable for the girls.
